Players:
Single-player

Engine:
Unity

Price:
TBD

Description

Please Click Responsibly is a narrative-driven clicker game about ambition, productivity, and trusting the system a little too much. The numbers go up. Everything is fine.

Click, upgrade, automate, and don't ask too many questions. Each chapter introduces new mechanics, familiar themes from popular media, and surprises.

Features

- Narrative-driven incremental gameplay across multiple chapters

- Each chapter offers unique progression with upgrades, automation, and more

- Secrets and optional hidden content

Demo

A free demo is available on Steam.

Controls

- Mouse & Keyboard

- Gamepad support

Languages

- English
